

Environmental Land Management from the CAP – Evidence of past success and the scale of future need.

22nd April 2010
Brussels

Office of the Northern Ireland Executive in Brussels
180 Chaussee d’Etterbeek, 1040 Brussels, Belgium

9.00	Registration and Coffee
9.30	Opening Address: Giuseppe Traverso, Ithobe, Euskadi Biodiversity Centre, Bilbao, Chair of ENCA
9.45	Delivering environmental benefits from European Agri-Environment Policy: Introduced and facilitated by David Baldock, Institute for European Environmental Policy (IEEP), London. Evidence of success from four European countries:
10.00	Germany: “Evaluating Agri-environmental schemes in Germany - some considerations for the post 2013 Period”, Bernhard Osterburg, von Thünen Institute, Braunschweig
10.25	Estonia: “Positive benefits of Agri-environmental policies in Estonia”, Iiri Selge, Agricultural Research Centre, Tallin
10.50	Italy: “The Agri-environmental Policy in Italy – Conclusions for the post2013-Period “: Lorenzo Ciccarese, Institute for Environmental Protection and Research (ISPRA), Roma
11.15	Tea / Coffee
11.35	United Kingdom: “Review of environmental benefits supplied by agri-environmental schemes” Nigel Boatman, Food and Environment Research Agency, York, England.

12.00	Questions and Discussion – Common factors behind the success of agri-environment. Agri-environment delivering environmental land management post 2013.
12.40	Summing up: David Baldock, IEEP.
12.50	Lunch
14.00	Delivering environmental goods and services from land management – modelling the Budget. Introduced and facilitated by David Baldock, IEEP. Three models estimating the scale of budget need for delivering environmental land management
14.15	Netherlands: “Assessing the land and budget requirements to meet agri-environmental policy objectives in the Netherlands”, Koen Overmars, Netherland Environmental Assessment Agency
14.45	United Kingdom: “Estimating the scale of future environmental land management requirements for the UK”, John Elliot, ADAS
15.15	Tea / Coffee
15.35	Germany: “Budget needs for multifunctional agriculture – considerations for Germany”, Ulrich Hampicke, emeritus professor, University of Greifswald.
16.05	Questions and Discussion – Modelling the scale of environmental land management. The scale of budget need for delivering environmental land management across Europe.
16.55	Summing up: David Baldock, IEEP.
17.05	Closing Remarks: Giuseppe Traverso, Iñobe, Euskadi Biodiversity Centre, Chair of ENCA
17.15	End of Workshop
